Our Philosophy

What makes PIR Cricket Academy different from every other coaching centre

Curriculum-Led, Not Coach-Led.

At PIR Cricket Academy, every session follows a documented, globally-researched curriculum. Your child's training is consistent regardless of which coach is present — because the plan comes first. Our coaches are BCCI-certified (L1/L2) and trained to deliver this curriculum with precision, not to freestyle it. This means every student in the same age group receives the same quality, structured development — every single day.

ICC International Cricket Council	BCCI Board of Control for Cricket in India
Long Term Player Development (LTAD): Learn to Play -> Learn to Train -> Train to Compete -> Train to Perform	NCA age-group curriculum aligned — Foundation, Junior, Youth & Senior stages. Coach certification L1/L2 required at all stages.
ECB England & Wales Cricket Board	Cricket Australia (CA)
Batting Shot Pathway, Talent Pathway Action Plan 2024, Physical Literacy & Fast Bowling Guidance incorporated.	Cricket Blast to Pathway to First Class progression model — adapted for Indian junior cricket development context.

Age Group Overview

Four structured pathways — each age group has its own objectives, load, and equipment

**U10 · Ages
6–10**

Foundation

Fun first. Skills next. Confidence always.

- Motor development & hand-eye coordination
- Basic cricket rules and scoring
- Soft-ball and foam-ball play only
- 3–4 sessions per week · 60–90 mins each
- Equipment: foam ball → soft ball → modified pitch
- No competitive matches until Month 3+
- Emphasis on enjoyment and participation

**U14 · Ages
11–14**

Junior

Building the technical foundations of a proper cricketer.

- Correct technique: grip, stance, bowling action
- Shot selection and basic footwork patterns
- Introduction to fielding positions
- 4–5 sessions per week · 90–120 mins each
- Equipment: tennis ball + hard ball with full protection
- Internal match practice from Month 7 onwards
- Individual skill assessment every 2 months

**U17 · Ages
15–17**

Youth

Technical mastery and competitive application.

- Advanced batting, bowling variations & fielding
- Strength & conditioning (age-appropriate)
- Match tactics and decision-making
- 5–6 sessions per week · 120–150 mins each
- Monthly HD video analysis per student
- Mental skills: focus, pressure handling
- Tournament preparation from Month 11

**U19+ · Ages
18+**

Senior / Elite

High-performance preparation for serious players.

- Elite gym conditioning (periodized program)
- Power batting, advanced bowling mastery
- Wearable sensor biomechanics review
- 6 sessions per week · 150+ mins each
- Full HD analysis + individual strategy plans
- Sports psychology & leadership development
- Trial & selection match preparation

12-Month Annual Curriculum

Every month has a defined phase, name, and measurable objectives

Phase	Curriculum Theme	Key Objectives
Phase 1: Foundation	Assessment & Introduction	Initial skill assessment, safety education, cricket rules, team building, movement evaluation
Phase 1: Foundation	Physical Foundation	Fitness benchmarks, core strength, flexibility, hand-eye coordination, agility patterns
Phase 2: Skill Building	Batting Foundations	Grip, stance, guard, forward defense, back defense, straight drive, footwork patterns
Phase 2: Skill Building	Bowling & Fielding Basics	Bowling action, seam/spin grip, ground fielding, overarm throw, catching technique
Phase 3: Refinement	Batting Expansion	Off-side shots (cover, cut), leg-side shots (flick, pull), running between wickets, playing pace & spin
Phase 3: Refinement	Advanced Bowling & Fielding	Seam/swing bowling, spin variations, fielding positions, boundary fielding, wicket-keeping
Phase 4: Application	Match Practice	Match conditions batting/bowling/fielding, building partnerships, pressure training scenarios
Phase 4: Application	Tactics & Decision Making	Reading match situations, format strategies (T20/ODI), bowling plans, mental toughness training
Phase 5: Advanced	Video Analysis & Advanced Skills	HD video analysis per student, individual correction plans, advanced batting/bowling, sports psychology
Phase 5: Advanced	Leadership & Mental Skills	Captaincy development, team communication, pre-match routines, pressure handling, goal setting
Phase 6: Competition	Tournament Preparation	Full match simulations, opponent scouting & game plans, peak conditioning, tournament mindset
Phase 6: Competition	Review, Assessment & Planning	Season-end assessment, achievement ceremony, next year pathway, parent consultations, certificates

Weekly Training Schedule

A structured 6-day week — Sunday is rest and recovery for all groups

Day	Foundation (U10)	Junior (U14)	Youth (U17)	Senior / Elite (U19+)
Sunday	Rest & Recovery	Rest & Recovery	Rest & Recovery	Rest & Recovery
Monday	Fun Fitness & Movement	Fitness & Conditioning	Strength & Conditioning	Elite Conditioning
Tuesday	Batting Fundamentals	Batting Technique	Advanced Batting	Power Batting & Strategy
Wednesday	Bowling Basics	Bowling Skills	Bowling Mastery	Elite Bowling
Thursday	Catching & Fielding	Fielding & WK Basics	Fielding Excellence	Specialist Fielding & WK
Friday	Mini Match Day	Match Simulation	T20 Match Simulation	Full Match / Pressure Practice
Saturday	Open Nets & Review	Nets & Skill Assessment	HD Video Analysis	HD Analysis & Strategy

Session Structure

What happens inside every single training session at PIR Cricket Academy

1	Warm-Up 10–15 mins	Dynamic stretching, agility warm-up drills, cricket-specific movement patterns, shoulder activation, and mental readiness. Every session starts the same way to build routine and prevent injury.
2	Skill Focus 30–45 mins	The primary technical skill of the day — batting, bowling, or fielding drills taken directly from the curriculum. Coach demonstrates, students drill, coach corrects. Reps are prioritised over volume.
3	Game Application 20–30 mins	The skill is applied in match-like conditions — small-sided games, scenario drills, pressure nets. This bridges technique to performance. Students learn to use skills under real match conditions.
4	Conditioning 10–20 mins	Age-appropriate fitness: functional strength, speed, agility (load increases with age group). U10: fun fitness games. U14: circuits. U17: strength conditioning. U19+: periodised gym program.
5	Cool-Down & Review 10 mins	Static stretching, hydration check, coach gives individual feedback, student writes one improvement goal for their next session in their cricket diary.

How We Measure Progress

Structured assessment every 2 months — shared with students and parents

At the start and end of every 2-month phase, each student undergoes a structured skill assessment across 5 key performance areas. Results are shared with students and parents each quarter. Progress scores drive batch advancement recommendations.

1	Batting	• Technique score (coach-rated on 10-point scale) • Shot range — count of shots demonstrated correctly • Footwork quality — front/back movement assessment • Net strike rate during structured batting drill
2	Bowling	• Action correctness — video-assessed checklist • Line & length accuracy: % on target in 30 balls • Variation count — number of different deliveries • Economy rate in practice match conditions
3	Fielding & Wicket-Keeping	• Catching success rate — % from 20 catches • Throwing accuracy: hits on target from set distance • Fielding position knowledge quiz score • WK: stumping and diving technique (senior groups)
4	Physical Fitness	• Sprint times: 10m / 22m / 44m vs benchmark • Core strength: max plank hold & sit-up count • Flexibility: hamstring & shoulder mobility • Agility: ladder drill completion time
5	Mental & Character	• Self-assessment journaling score (5-point) • Coachability rating from coaching staff • Leadership observation by coaches • Resilience: response to failure in match situations
